

OCEANBAY
LUXURY BEACH RESIDENCES

GENERAL FINISHES

As part of our commitment to the environment, all our finishing products come from LEED certified companies that use sustainable materials and a highly efficient production process to guarantee minimum waste and the best quality.

We use high impact and humidity resistant products, through a design that combines aesthetics and functionality to create an attractive and captivating mix and giving the space a personality of its own.

GENERAL FINISHES

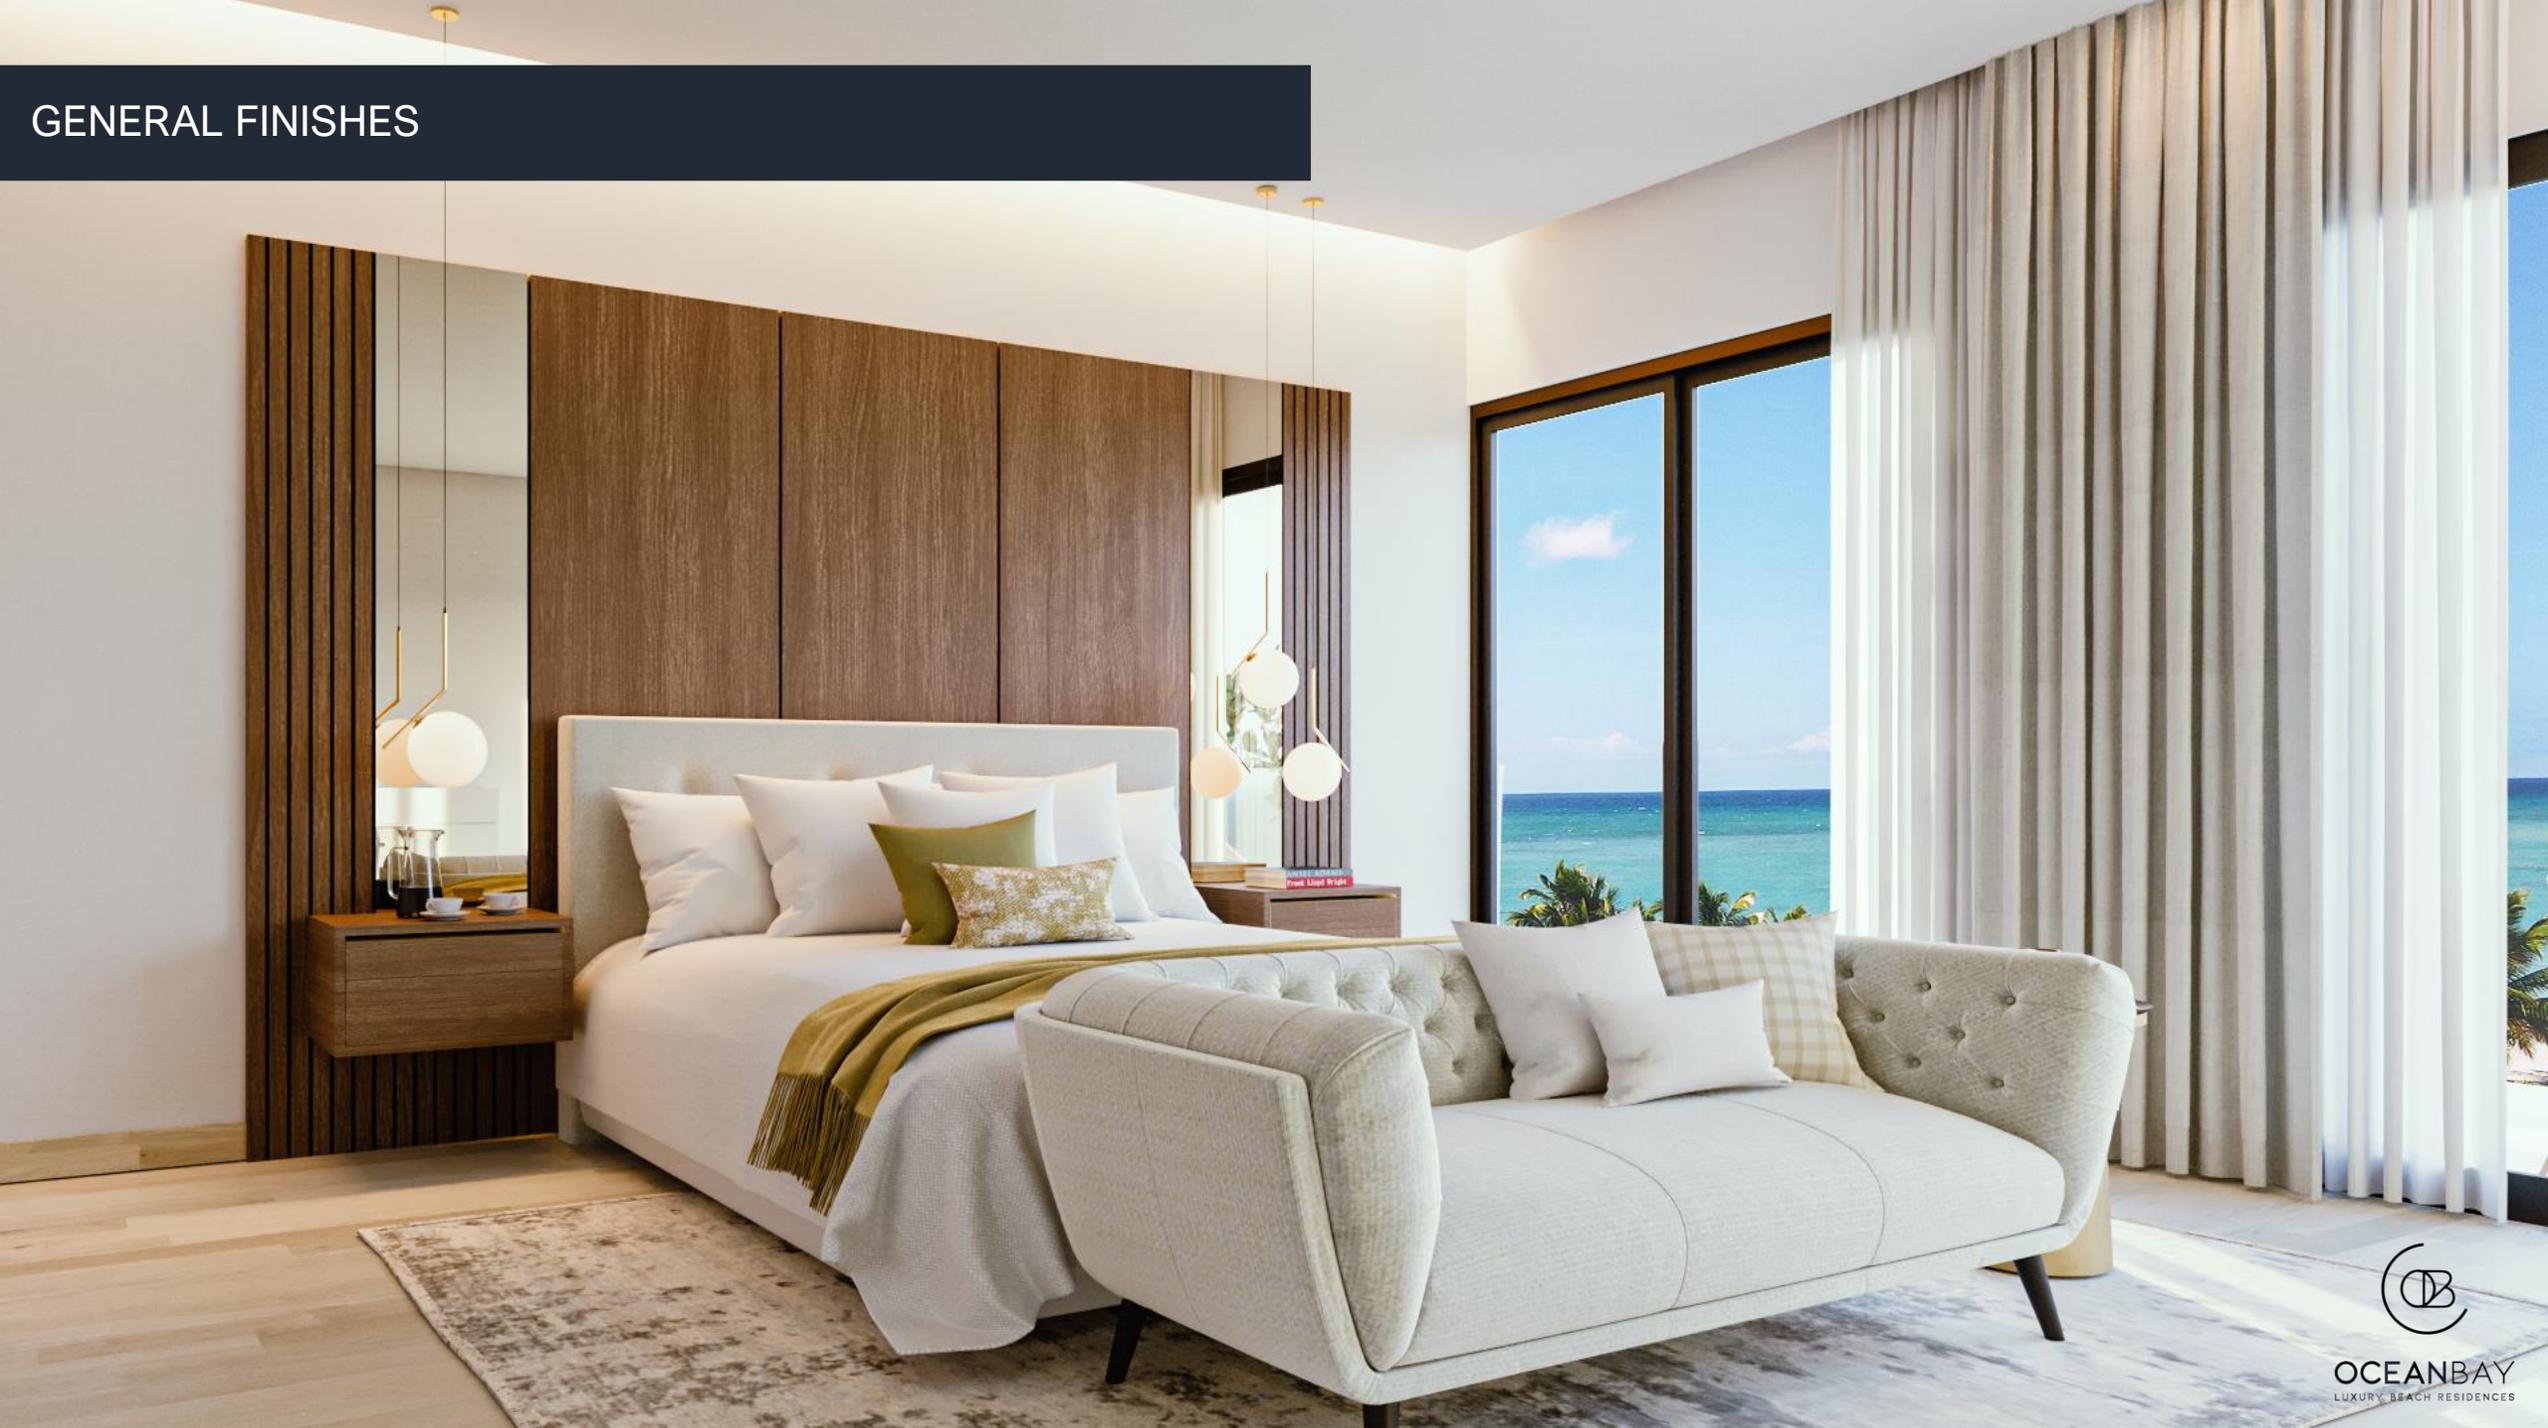

General interior flooring with premium quality Italian rectified ceramic tiles using through-body dyed porcelain technology and minimum absorption.

All of our condos include energy efficient Integrated air conditioning system.
